JAPANESE ACTION BRINGS CLIMAX IN ARMS CONFERENCE

TOKIO SEEKS TO VARY PRINCIPLES IT ACCEPTED.

HUGHES IS FIRM American Answer to Oriental Tactics Emphatic; Yank Delegation Unit.

Washington.—A climax has come rather unexpectedly in the armament conference. Japan has sought to vary the principles which she accepted at the outset. Under the guise of discussing "details" the Japanese have brought forward a proposal to increase the size of their navy beyond the point laid down in the Hughes program which the Japanese accepted in principle "last Tuesday."

The answer of the American delegation to such tactics is an outstanding dramatic event of the conference. Secretary Hughes told President Harding and the entire cabinet the situation as it stood.

was given full approval to go ahead with the plan he had in mind. It is that the American naval proposals must stand as they are with no additions or deletions. The Japanese have already been accepted by Great Britain and Japan.

Japan tries to break contract. It was inevitable that a divergence of opinion would arise and that an effort had been made to force the Japanese to accept the United States really was behind her proposals. The American delegation now has left no room for doubt. As one influential member of the delegation expressed it, "the competition in big battleships is over and is a thing of the past" or else "we must go ahead with our program." The Japanese have been told that the American program is a "safety" program, that Japan needs a sixty per cent navy. He pointed to Japan's defensive requirements.

That's where he made his mistake. The American delegation pointed out the naval program proposed by Mr. Hughes was by no means designed to meet the "needs" of a nation for if that were the case there would be no need to discuss "what constituted the real necessities" of each nation and an agreement to stop competition in building would probably be hopeless.

American Program Fixed. The American program, on the other hand, maintained an effort to maintain the existing ratio of strength but simply not to add (Continued on page 2.)

One Killed, 1 Wounded in Belfast

By Associated Press.
Belfast.—One man was killed and another was wounded in a renewal Monday of the rioting which broke out in the Belfast district in Belfast Sunday, when rival factions clashed. Four persons were sent to hospital and numerous others were slightly injured in the disturbance. Monday's recurrence of the trouble was met promptly by the authorities and the situation was speedily brought under control.

Uncle Sam's Mails Guarded by Marines

Marines Guarding Mail Trucks No Chances with Suspicious Persons and Shoot to Kill.

The fact that Uncle Sam is taking no chances with his mails was called sharply to the attention of the public and of would-be bandits when Marines shot two gangs at Depere Sunday who disregarded orders to keep away from mail cars while seeking to "bump" a ride. The "leathernecks" are under orders to shoot to kill, if necessary, rather than to take chances of further mail hold-ups.

ORDER RATES CUT NEW RECORD SET IN ON HAY AND GRAIN RED CROSS DRIVE

Positive Edict Issued by I. C. C.; Compromise Is Rejected.

By Associated Press.
[WASHINGTON]—A positive order was issued by the Interstate Commerce commission Monday, requiring railroads to cut rates on hay and grain 10 per cent decrease in hay and grain rates into effect on or before Dec. 27.

The order follows up the decision given Oct. 30 by the commission, which declared grain and hay rates from the Mississippi valley to the Pacific coast unreasonably high, but which did not carry compulsory rates. The October decision instructed the railroads to make the reduction by Nov. 20, was not made because the railroads opposed negotiations with the commission regarding rates on all agricultural products be substituted for the larger decrease on grain products and hay alone.

The commission, however, by the order issued Monday, disregarded the compromise proposed by the railroads and makes the larger decrease in hay and grain mandatory upon the roads.

The order Monday made specific and definite the hay and grain reductions. The original decision said railroads should reduce the rates on the products concerned by one-half of the increases given in 1920. The commission Monday ordered that the reduction be made on the basis of the 1920 rates, as defined in its decision, where 40 per cent increases were allowed in 1920, the commission Monday ordered that the rate be reduced to 10 per cent. The commission also ordered that the rate be reduced to 10 per cent on the basis of the 1920 rates, as defined in its decision, where 40 per cent increases were allowed in 1920, the commission Monday ordered that the rate be reduced to 10 per cent.

MARINES SHOOT 2 MEN TRYING TO BOARD MAIL CAR

FIRE WHEN ORDER TO KEEP AWAY IS DISREGARDED.

TAKE NO CHANCES Depere Scene of Shooting; Negro Suspect in South Killed.

(Special to the Gazette)
Depere.—Two men endeavoring to board a Northwestern railroad train here early Sunday, when they were shot by Marine mail guards, when they started to climb onto the mail car instead of the blind baggage car. Otto Lambert, one of the men shot, was improving at a hospital in Green Bay Monday morning. No trace of Lambert's companion, who visited him Sunday afternoon in the hospital, could be found Monday.

The shooting, the first to be reported in connection with trains running in and out of this city since Postmaster General Rogers adopted the policy of placing armed marines aboard trains to protect the United States mail, took place on the outskirts of the railroad yards. A train, headed for Milwaukee, stopped in the Depere yards to take on water. Two mail guards were in charge of the mail car.

Two men, said by the police to be Depere, were seen approaching the train, with the intention, it is asserted, of riding to Milwaukee. The men, according to statement to the police, intended to secure a place on the bumpers of the baggage car. Mistaking the mail car for a baggage car, the men attempted to climb on, and the marines in charge shouted to them to get away, and when they did not retreat, opened fire.

The big fight went on for four times, twice in the left wrist, once in the right arm, and once in the chest, the latter bullet passing within a few inches of his heart.

The second man was also hit, but it was said that the bullet which struck him, crashed against a watch he carried, and prevented him from being seriously injured.

"LISTEN, WORLD" IS SOMETHING NEW FOR THE GAZETTE

There's always something new, in fact there are hundreds of them offered every week to the Gazette from the writers and others who want to get into print in the Gazette columns. You cannot have them all and in fact, no one wants them all but the survival of the fittest and all that the Gazette gets is what the "readers like." Out in Oakland, Calif., is a woman who has made herself famous on the Pacific coast, and she is going to write a daily feature for the Gazette.

10 IN COURT ON ENGLAND PLEDGES GIRL ON STAND IN VAGRANCY CHARGE DEFENSIVE HELP ARBUCKLE TRIAL

Authorities Impressed With Seriousness of Lack of Employment.

City and county authorities are faced by one of the most serious problems in the unemployment situation that has come before them in many years. The unemployed are not Janesville people, but wanderers from other towns. The situation was brought forth by the attention of Judge E. J. Maxwell Monday morning, when 10 men stood before him on vagrancy charges.

Ranging in age from 32 to 70, all of them declared they were ready to go to work if they could find jobs.

"I've worked around this town for seven years and this is the first time I've ever been able to get a job," declared Frank Stark, overseas veteran. "My wife died a short time ago and it took all the money I had to pay the funeral expenses," said Richard Anna, Beloit.

The big delegation appeared as a result of Chief Newman's orders to arrest all vagrants.

Six of them—Joseph Vandusen, John Miller, William Eddy, Andrew Johnson, Albert Thibault and John Brady—were sentenced to 10 days in the county jail, with sentence to be suspended if they could find a job. Stark, the ex-soldier, was dismissed. Ole Ross, Frank Baker and Richard Anna were each given a 30-day probation to accept an offer to work in tobacco.

"I'm going to have the men keep bringing them in every day," said the chief.

SNOW FALLING IN NORTH WISCONSIN

Green Bay.—Snow was falling over the northeastern district of Wisconsin and the upper peninsula of Michigan Monday. Blizzard prevailed in several sections of northern Wisconsin, it was reported. The coldest temperature reported was at Ironwood, Mich., where the thermometer dropped to 17 degrees Monday morning. Snow, starting Monday morning, blanketed Green Bay and vicinity to a depth of approximately four inches. It was still snowing at 2 p. m. Monday.

TWO FIRE CALLS IN DOWNTOWN DISTRICT

Firemen were called out twice within two hours Sunday night by fire alarms in the business district.

The first alarm, at 1 p. m., came when passerby noted a dense volume of smoke in the Janesville Steam Dry Cleaning Co. building, 220 E. Main street. Investigation disclosed that the current had been turned on through an electric flat iron. A hole was burned in the ceiling and the building was filled with smoke.

When a stove-pipe fell down in the City Garage, 33-35 South Main street, at 2:30 p. m. Monday, the fire department was called by an alarm from box 8. There was no damage.

WORLD WAR VETS IN BANQUET TONIGHT

The semi-annual banquet of the veterans of "war" company, 128th infantry, will be held at 8 p. m. Monday in Edgerton. It is expected that 40 members of the organization will go from Janesville. The trip will be made by train and motor car. Those desiring to go by automobile are asked to be at Hockett's clear store at 6 p. m.

FRENCH PREMIER WARNS NATIONS OF MILITARIST PERIL

LUDENDORF FACTION IS READY FOR TROUBLE, ASSERTION.

PLEA FOR FRANCE Cannot Disarm Under Such Conditions, Says Briand in Thrilling Speech.

[By Associated Press.]
Washington.—Germany, while apparently disarmed, Premier Briand told the armament conference Monday, could, with her present machinery, raise an army of 6,000,000 or 7,000,000 men. At least 250,000 Germans were receiving daily military instructions, he added.

Although a part of Germany evidently wants peace, this readiness to get back to peaceful pursuits, the French premier declared another portion, headed by the Ludendorff and others of the military caste, is continuing to preach the old Prussian doctrine.

In a dramatic speech of an hour, the French premier outlined to the conference "what is being said in the door of France," which he added, wants peace.

"How can any one ask France to disarm under such conditions?" he asked.

France, Premier Briand said, proposed further reductions in her army which would bring it to half its former strength but still leave the door open for a new armament.

Reverting to the possibilities that the war parties of the central empires might come back to power, Mr. Briand recalled that recently when an attempted restoration in Europe which might have set the whole continent a fire.

"Fortunately for the entente," he said, "it was not the German government that was restored."

Confronted to physical aspects, Premier Briand said it was well understood that some persons took the viewpoint that, as Germany was continuing to build up her army, she was in no position to be dangerous.

"Our soldiers had a place in the light," said Mr. Briand, "and they know what to do. The German soldier can carry his heroism. Germany still has 1,000,000 men who have made war. You ask it is possible to mobilize an army there? I answer yes."

"What is the German army?" he asked.

"Is it in conformity with the peace treaty? No, certainly not. According to secret instructions, issued by some of German military authorities, these men are not only prepared for police service, but for war. They are not only prepared to recognize it. The German chancellor is loyal and has realized every real evidence that he supports the state of peace and that the German government is weak."

Clinton Farmer Freed of Blame for Man's Death

Forster Winegar, wealthy Clinton farmer, was exonerated from blame for the death of Charles Olds, Whitewater, at Clinton, Nov. 16, when a coon's jury at Beloit found the farmer guilty of "unavoidable accident." The jury was composed of Beloit men. They met at the Beloit municipal court rooms at 10:30 and after a short hearing conducted by Coroner Lynn Whaley returned the verdict.

MILK CRISIS HERE, EACH SIDE ACTIVE

New Marketing Co. Heads Urge Patience for New Deal.

By LEWIS C. FRENCH.

Numerous attacks are being made against the Chicago Milk Marketing company in Southern Wisconsin dairy counties and they are mostly founded on the low prices being paid for milk under the cooperative pool schedule. There is a unique and dangerous situation in the organized milk market for Illinois, Indiana and Wisconsin.

"Among those who have been hammering the marketing company are former officials and members of the Wisconsin Milk Producers' association—including C. H. Potter, Elgin, Ill., who founded many of the marketing company's localities in Rock county and other parts of the state. It is stated that the marketing company is getting from 25 to 30 cents more per 100 pounds for their milk."

Need Organized Market.

With no attempt to justify the marketing company's policy past or future, a review of the milk market question is attempted.

There have been mistakes, blunders and gross mismanagement on the part of the marketing company and the producers' association and the marketing company was formed after officials of the producers' association were asked to form a milk trust. The marketing company was formed as a subsidiary to "get around the law" in the cooperative handling of milk. The Chicago marketing company may not be the logical manner through which to handle milk. This organization may be an utter failure—but the dairymen in the Chicago district do need organization, a means of obtaining a certain market for their milk. Every county in Southern Wisconsin produces more milk than is consumed locally and there must be a market for the surplus—or the producers consequently suffer.

Whether the marketing company and producers' association are for the producers themselves to decide.

Lack of Experience.

The great trouble with the marketing company has been the lack of intelligent management. The company must get away from the idea that they must have farmers to run their business. They have selected men who were successful or fairly successful in the past, but who are not experienced in the handling of a million dollar corporation, handling millions annually, without any special training or experience for the job. The marketing company is a failure in the Chicago office, where competition is keen and business demands active, to handle vast problems, is too much to expect. One man attempted to handle the reins of the milk market for three states and he failed, according to the majority of the farmers.

Producers from around Elgin have bolted the marketing company. In addition there are those in Southern Wisconsin who are not in favor of the pool—being disgusted because of past mismanagement.

Must Improve Market.

The idea of the new officers is to "hold light" over the stressful period, with a promise of a new contract that takes away spread charges and pay a premium for being a member. Men blamed by the marketing company for putting the marketing company "in a hole" financially are now out with a hammer to have the farmers quit and are pushing the old producers' association.

There are two situations; one that the marketing company cannot ever hope to continue its past policy and hold its confidence. The other situation is that the marketing company has to be more apparent than they have been, and the results must be achieved within a reasonable length of time. The other situation is that the marketing company has to be more apparent than they have been, and the results must be achieved within a reasonable length of time.

It may be that the old producers' association is being put forward to oppose the marketing company—the mother against her offspring—as the organized milk market.

By March, 1922, the marketing company should be decided one way or another for the annual stockholders meeting is in February. The farmers in general will not wait much beyond March for a settlement of the control fight within the marketing company and the establishment of good business by business men.

THE PASSENGER GOT HIS LOAF OF BREAD

The motormen on the Janesville Traction company cars are genial and most accommodating. In support of this the following incident is offered. It relates the one told about the St. Paul train waiting patiently at road crossings for the farmers to arrive from a distant town with their milk cans to ship to market, until the frenzied passengers complained.

A young man jumped on a Janesville car Friday night at Frankfort street at a time when most people were in bed. Said the youth:

"Gee! I wanted to get a loaf of bread. Will you please stop at the bakery while I get one?"

The car continued on its way up to in front of the bakery and waited while the youth went in and fulfilled his errand.

600 PHONE CALLS ON FOOTBALL GAMES IN A FEW HOURS

When the football season is on there is no vacation for the telephone operators in the Gazette office. Three Bell lines and two Rock county lines connect the editors and business offices and they are all on the top notch of being busy. From 2 to 6 p. m. on Saturday every one of these lines is on the jump. No sooner does a "ring" come on one than another "ring" is there waiting. That is a part of the Gazette service to the public and it is pleased that it is able to do the job. One call each 30 seconds on each wire was about the average Saturday after 3 p. m. with Janesville playing Beloit and Wisconsin in the last battle at Chicago.

"What's the score of the game?" That is the usual question. It was seldom that it was necessary to ask what one of the hundred games the inquirer supposed the Gazette knew just what was in the questioner's mind. Yet they come on at the end of the line generally did.

When the answer was against the questioner's wish as to distance, "Chicago 3, Wisconsin 10," the questioner almost always said: "What's the time?"

In the time from 2:30 to 6 o'clock it is estimated that there were 600 calls in the Gazette office for information and general gossip about the game. The Associated Press wire is kept open for two hours after the regular time for closing and when it is understood that some of the 600 operators in the United States are taking football news it shows what an army is needed for all game results to be spread to the people.

Women are just as much interested as men in fact, the women Saturday who remained at the office rather than to brave the snow and mud of the field at the fair grounds was at the phone right along. Inquiries about the game were varied and could be heard when the score of the Beloit-Janesville game was given.

Last summer when the Dempsey-Carpenter battle was fought, one woman called on the phone and on being told the result that Dempsey had won, she cried out "God bless the Irish."

Another woman asking in a piping voice when told ejaculated, "Oh, hell!"

The Gazette takes pride in its telephone service and wants every member of the Gazette family to be able to use it at all times. Hundreds of questions on as many different topics are asked in the course of a month and the Gazette is pleased to look up any information asked at any time.

any more ships. On that fundamental, the American delegation remains adamant. There will be no concessions, no compromises on this because the American delegates consider that Japan and Great Britain accepted the principle last week and any deviation would be an unforgivable reversal of word.

When Secretary Hughes uses the word "principle" he means "principle" and when he says the "details" of the program remain to be worked out, he means "details." That is the first point which foreign delegates have failed to take into consideration. Some have imagined that an acceptance "in principle" could easily be made to satisfy world opinion. It is the outset but that the real modification of fundamentals could be obtained when the "details" were discussed. Secretary Hughes fully intends to hold the conference to the literal meaning of details. He considers the principles settled.

Acid Test Reached.

It is the acid test of fineness which has been reached. The American delegation is not in its course and behind it is the full support of President Harding. In the face of the American attitude, the other nations have no expectation of better prices. The producers know the consequences will not pay a cent more than they have to for milk. That is only business.

It may be that the old producers' association is being put forward to oppose the marketing company—the mother against her offspring—as the organized milk market.

By March, 1922, the marketing company should be decided one way or another for the annual stockholders meeting is in February. THOMAS CLARK, 81, DIES IN JOHNSTOWN

Was Prominent Farmer and Breeder—Served on County Board.

Thomas Clark, 81, one of the earliest settlers of Rock county, who came here in 1858, died at his home in the town of Johnstown at 5:30 a. m. Monday. Mr. Clark was one of the most highly respected farmers of the county and his straightforwardness and manliness of heart had made him a large circle of friends.

Born in Aberdeenshire, Scotland, January 24, 1840, he moved to America and to Rock county with his parents when 18 years of age. He lived at home in the town of Johnstown for a short time and in 1864 was able to purchase the farm where he had since made his home. His farm now consists of 260 acres of fine land and 20 acres in his wood land.

Mr. Clark always spent a great deal of energy and thought upon his farming and besides doing general farming he devoted much care to the breeding and raising of stock, making a specialty of Clydesdale horses and Shorthorn cattle. He also gave a great deal of time to public affairs, until his age prevented him from serving on the county board of supervisors and was chairman from 1905-1907, inclusive.

He was married on Nov. 15, 1866 to Miss Christina Hadden, the couple having observed their 55th wedding anniversary last Tuesday. Five children were born to this union: William H., who lives at home; Frank, town of Johnstown; Catherine, who lives at home; and Thomas D., who died May 15, 1910. Eight grandchildren and one great-grandchild survive, besides three brothers, Robert and David, Janesville, Alexander, Omaha, Neb., and a sister, Mrs. Isabella Youngclaus, Janesville.

Funeral services will be held at 2 p. m. Wednesday from the home, with Rev. Karl McPherson, U. B. church, Johnstown, officiating. Burial will be in the Johnstown cemetery.

Propaganda Battle.

To offset this to some extent a battle of propaganda and publicity has begun. Each delegation calls in the correspondents and explains its point of view; but insists that there must be no direct quotation. The spokesmen virtually answer each other's statements that way through the press and a discussion is continued by indirection which many experienced observers of international conferences think might just as well be carried on directly in open meeting.

It is too early to say whether the diplomacy of the new world will get the upper hand. Thus far America has the edge but the secret machinations of old world diplomacy are threatening to break down the results achieved in the first two open sessions.

GENEVA ACCEPTS DEVELOPMENT PLAN

Lake Geneva.—Acceptance of a city development plan as drawn by Arthur J. Sweet, Milwaukee city planning engineer, and action directed toward presenting the plan to the city council for acceptance of zoning or rejection, featured a lengthy meeting of the Lake Geneva city plan commission.

The question of zoning was discussed, but it was decided a zoning plan would not be feasible without the city plan commission's special meeting was called for this week to take up every phase of zoning and to discuss such a zoning plan as Mr. Sweet might have drawn up at that time.

SEEKS MAN WHO SOLD OTHER FELLOW'S CAR

Monroe.—Dr. W. B. Chast Saturday surrendered the car which he had bought in St. Paul and which had been claimed by Joseph Brobst, Frank, has begun. Each delegation calls in the correspondents and explains its point of view; but insists that there must be no direct quotation. The spokesmen virtually answer each other's statements that way through the press and a discussion is continued by indirection which many experienced observers of international conferences think might just as well be carried on directly in open meeting.

TREASURER SELLS PAVEMENT BONDS

George Page and Wife Now Enjoying Splendid Health After Years of Suffering.

"Anyone who has been helped by Tanlac I have certainly ought to let others know about the medicine," said George Page, 8781 Mandale Ave., Detroit.

"For a number of years I had a complication of troubles, and they had about got the best of me when I ran across Tanlac. I suffered terribly from indigestion and dyspepsia, and my stomach was so upset that I could scarcely retain a thing that I managed to force down. Gas foamed after every meal and pressed against my heart, until I almost knocked me breathless. I had to be taking something all the time for constipation, and had such attacks of dizziness that I often fell over while at my work. I had paid out lots of money for medicines and treatments without getting any results; and was just about at the end of my rope."

"So my wife told me about Tanlac that my wife insisted on my taking it. Well, my improvement was rapid, and six bottles have knocked my troubles sky high. I haven't an ailment of any kind now, but eat good, sleep good and feel fine in every way. My wife has also used Tanlac with splendid results, and we think it over to our neighbors. Tanlac is sold in Janesville by McCue and Byss and leading druggists everywhere."

Wisconsin will have a total of 683 motor vehicles turned over for road work from the bureau of public roads of the United States department of agriculture. The trucks and autos are those turned over to the agricultural department by the war salvage bureau. Wisconsin will receive, it is reported, 351 trucks and 332 autos. These are a number of these will be turned over by the state to Rock county for road purposes.

Why your light bills are higher in January Than July

THIS CHART shows you at a glance why your electric light bills are apt to be considerably higher in January than July. The illustration has been prepared by the Society for Electrical Development and gives the number of artificial lighting hours, per day, for each month in the year. You will notice that the average use of electric light in a residence in December, is the heaviest of the year. In December the average use is nearly 7 hours a day, whereas in June, the average is only 2 hours and 33 minutes.

In January, the daylight hours grow and the artificial lighting hours decrease. And this condition continues from month to month until we again reach the balmy days of June.

Beloit Downs Blues, 7 to 6; Williams Captains Badgers

Poor Kick and Fumble Lose Greatest Battle of Year for Janesville

Failure of Janesville high school to kick goal after a brilliant touchdown kept Beloit a 7 to 6 victory in the annual clash between the institutions here Saturday. Lack of a punting game for the Blues in the greatest game of the year.

It was homecoming day for Janesville. Twenty-five hundred fans crowded the stadium three deep. Local posts decorated in the colors of the schools blended with the Bower city band in lending to the scene rich hues unusual in high school athletic activities.

Blues Lose Stripes
The Purple of the Gateway city came, 600 strong, confident of a walkaway. They returned home hilly with an inward feeling that the breakers went to their squad. The visitors were hard pressed during the entire combat. Janesville outplayed them and should have won except for a few instances of homecoming day.

Though scraped of a covering of snow, the field was in its worst condition of a year of mud. Ankle deep in silt and crushed in places with heavy machinery the ground made the going hard. Accurate handling of the pigskin was difficult. It was due to a fumble of the shuffling ball that Beloit was able to gain its possession back after they were through to the winning touchdown.

Locals Play Brilliantly
Sensational plays were numerous. Surging for the most part between the 20-yard line and the 40-yard line, the battle was fierce. Janesville's line held magnificently, although that one fault of being dazed in the place was still present and lost the game. The secondary defense of the Blues came through time after time for repeated gains and on occasions three Beloit players for losses of three to 10 yards.

Not once during the first half did Beloit threaten Janesville's goal. Only twice in the first two periods, were the Purple able to invade Janesville territory. Their greatest moment during that time was to the 20-yard line. The Blues constantly took the oval back, rushing through holes opened by Young, Knipp, Schults and Conry at half time it was Janesville's ball on Beloit's 45-yard line.

Beloit Makes Score
At the opening of the second half, Janesville suited into Beloit and after Griddle had kicked off to the 20-yard line and Gilbertson carried the "skin" to the 40, the Purple lost 20 yards when Janesville took them back on bad attempts at runs. The battle lagged in midfield when the wicked toe of Griddle failed to place the ball on the 3-yard line. Twice Young of Janesville held the entire Beloit team back with the aid of Griddle. But the Blues seemed to lose their fight a moment. Gilbertson made a declared plunge, giving his interference time to work through and helped through center for the touchdown. Then wiping his shoes and the ball, Gilbertson kicked the goal that won the game.

Blues Great Pass Fails
Janesville was fighting desperately in the fourth quarter. Attempts of Gilbertson to make field goals were stopped three times when Young, Griddle and Conry blocked the kicks. Once he tried every precaution of cleaning his hands, shoes and the ball.

Then Knipp opened the aerial attack. Penalties for being offside were inflicted upon Beloit. The Janesville was sent back 20 yards for holding. Four times, the Janesville players took Beloit back for losses on exchange of punts. Janesville brought the ball back to midfield.

Season's Finest Pass
With six minutes to go and darkness falling, exchanges of kicks became numerous. After three passes failed, Knipp made the greatest aerial throw of the season for 39 yards to Crispier. The Janesville end had an almost open field before him and while the mob broke into frenzy he pulled off a 20-yard run to the 17-yard line, being tackled when he looked around to see who was coming. It was a beautiful play.

Immediately, Knipp tried another pass but it was incomplete over the goal line and the pigskin went to Beloit on a touchback on the 20-yard line. The battle grew more deadly. Two minutes to go and Gilbertson, who had got away with a 50-yard punt in the second quarter, lifted the oval to Janesville's 40-yard line and his team recovered on a Blue fumble. The game ended after Janesville brought the ball back to Beloit's 28-yard line.

FOUR EASTERN TEAMS REMAIN UNDEFEATED

New York—Yale's defeat at Harvard leaves Pennsylvania State, Lafayette, Cornell and Washington and Jefferson, as the only undefeated major college elevens of the west this season. Cornell's Thanksgiving day game is with Pennsylvania State, Washington and Jefferson will oppose West Virginia and Pennsylvania State at Rutgers. Glenn Warner's sliding Pittsburghers.

Edgerton Flash Is Unanimous Choice of Team

Madison—Roland F. Williams, Edgerton, will captain the 1922 Wisconsin football team as a successor to G. M. Sundt. Stoughton, who graduated this year. Williams has been a star halfback of the present season and will begin the third year of varsity competition next fall.

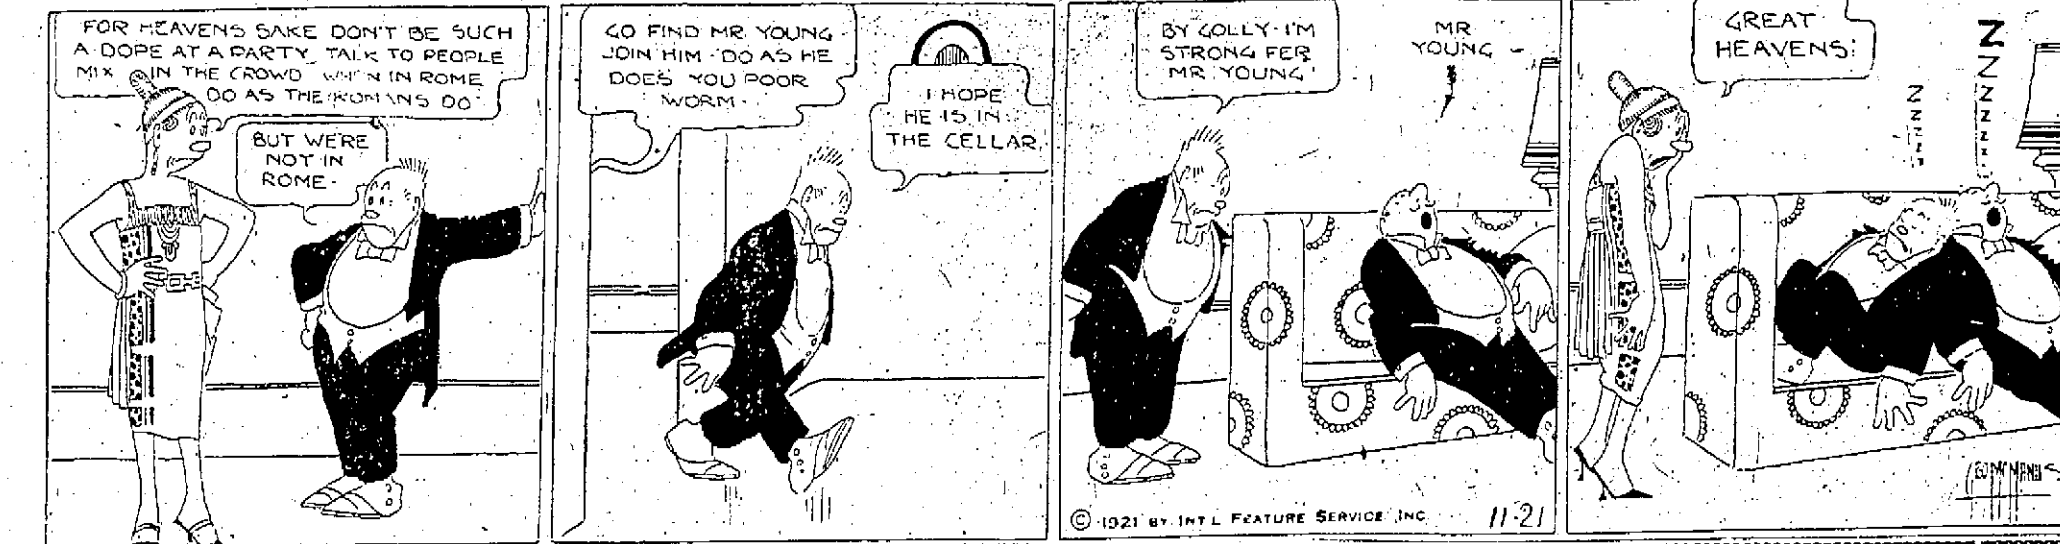

Gustav Rebell of Aurora, Ill., regular end for two years, received the same number of ballots as Williams on the first vote, but withdrew and a unanimous ballot was cast for the Edgerton player.

"Rollie" Williams has been declared one of the best all around players in the conference this season. Without a doubt he will place on the list of the best players of the year.

ROLAND (ROLLIE) WILLIAMS
the mythical all-conference eleven. In the Wisconsin-Minnesota game he played such a dominating game that he was considered at that time as one of the greatest half backs this year. He has played two games at quarter in the place of Gibson, who was injured. However, while he was brilliant in the Gopher game, he did not shine so vividly later. Williams has a fleet, whirling style

Badgers Lose 6 Regulars on Next Year's Eleven

Madison—With Iowa undisputed football champions of the Western Conference, Wisconsin must content itself with fourth place on a percentage basis, but by both Chicago and Ohio State, who stand as runners up. The tie-score with Michigan leaves the Badgers one victory behind the Maroons and Buckeyes. Chicago's 2 to 0 victory on Saturday has left the university disheartened. There was a general expectancy that the team would be able to open an attack that would build the Maroon defense and give Wisconsin the victory that would place them in a position to claim a tie for the championship for the first time since 1912.

Six Regulars Gone
Six regulars of the varsity team played their last game Saturday. Their loss will require Coach Richards to rebuild his entire eleven during the coming season, with great gaps left in the line and backfield. Captain Sundt, the best punter in the conference, and an inflexible defensive player, graduates after four years as a regular. Elliott, star halfback for three years, leaves with Sundt, taking the team's two strongest backfield men.

Goold, who has played in the combination for three seasons, and a power on both defense and offense, together with Wood, who has alternated at half and end in some of the games, will graduate and end their football careers.

Brace Also Goes
Bunce exits from the center position leaving a big gap in the line. For three years he has stood out as one of the star play men of the conference, and his loss will doubtless be hard to meet. Brader at tackle, that enables him to get away on long creeps and open field work.

He is a modest type. After the Minnesota game, when he could have owned Madison and many were looking for him to sing the praises, he boarded the first train out for home.

Devine Leads Scoring in Big Ten; Elliott Second

Chicago—Aubrey Devine, the little All-Western captain and quarterback of the University of Iowa football eleven, led the Big Ten stars in scoring during the past season. Devine tallied 68 of the 121 points in ten made in championship contests, a record which has not been equaled in the conference in recent years.

Devine's record represents nine touchdowns and 24 goals from touchdowns. He led the conference in each of these branches of scoring as well as in the total points. Counting preliminary games, his total would be much larger.

Ranking next to Devine was Elliott, Wisconsin's halfback, who scored seven touchdowns for 41 points in championship contests, while Locke of Iowa was third and Belding of Iowa tied for fourth place, scoring the Hawkeyes three of the first four leading scorers of the season.

CENTRE HAS CINCH BEATING W & L, 25-0
Louisville, Ky.—The Centre college "Praying Colonels" scored an easy 25 to 0 victory Saturday over Washington and Lee. Centre used the aerial attack with a mixture of straight football. Snoddy made two touchdowns, while McMillin and Roberts counted once each.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.
